## OVERVIEW

### Purpose

The purpose of this report is to support the integrity and transparency in Government Contracting Practices through annual reporting activities. It enhances the transparency of Government Contracting Practices while presenting meaningful and helpful information in a timely manner.

### Introduction

The organization of this report is based on the Government of Nunavut's (GN) Contracting Procedures and information available from Nunavut Housing Corporation's databases. The report provides statistical information and contract details about the Nunavut Housing Corporation's contracts and operating and maintenance expenditures for the fiscal year 2021 - 2022.

### Report Overview

The report focuses on the distribution of contracts awarded to companies in accordance with their NNI registration identification (NNI status). The registration IDs are noted below.

|                 |   |
|-----------------|---|
| <b>INUIT:</b>   | Inuit-owned business registered with NTI  |
| <b>NUNAVUT:</b> | Government of Nunavut registered business |
| <b>OTHER:</b>   | None of the above.                        |

In the supporting data sheets, companies that are both NTI and NNI (NTI/NNI) registered are classified in the summary information as Inuit. An NNI company registered only is classified in the summary information as Nunavut. Companies without NTI or NNI are grouped under 'other.'

The detailed contract information is organized into **Section A** and **Section B**.

Section A deals with 'Major Construction.' As per the Government of Nunavut's Contracting Procedures Manual, the data in section A includes contracts with a value of \$25,000 or greater.

Section B is devoted to the operating and maintenance expenditures and includes Goods, Services, Maintenance, Leases and all other contracts over \$5,000.

## CONTRACTING REPORT: 2021-2022

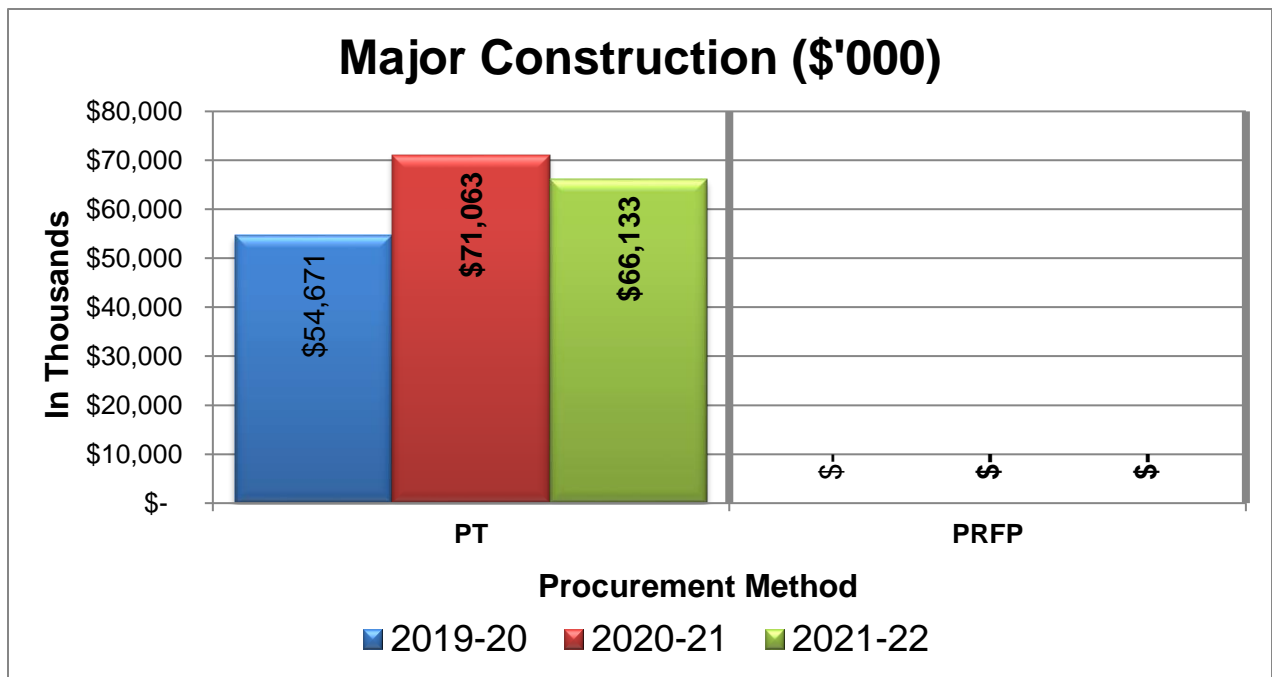

### SUMMARY OF SECTION A—MAJOR CONSTRUCTION CONTRACTS

This section contains all major construction contracts awarded for \$25,000 or higher during the fiscal year 2021 - 2022.

| CONTRACT TYPE               | AMOUNT               | PERCENTAGE  |

| OTHER        | 0                    | 0%          |
| <b>Total</b> | <b>\$ 66,133,100</b> | <b>100%</b> |

The information was recorded at the time the contract was awarded. The award value does not reflect the amount paid out. If information is required on the current status of the contract, that can be provided upon request. While NHC strives for transparency, it is to be noted that proprietary information may not be released for contractual and legal reasons.

## Leases

This section provides information on leases held by the NHC used for public and staff housing.

In 2021 - 2022, new leases were primarily procured through Public Request for Proposals (PRFP). Where possible, NHC opted to renew most leases under the same vendors, as the units were already occupied by NHC public housing or staff housing tenants. Failing to renew the leases would cause significant disruption to operations.

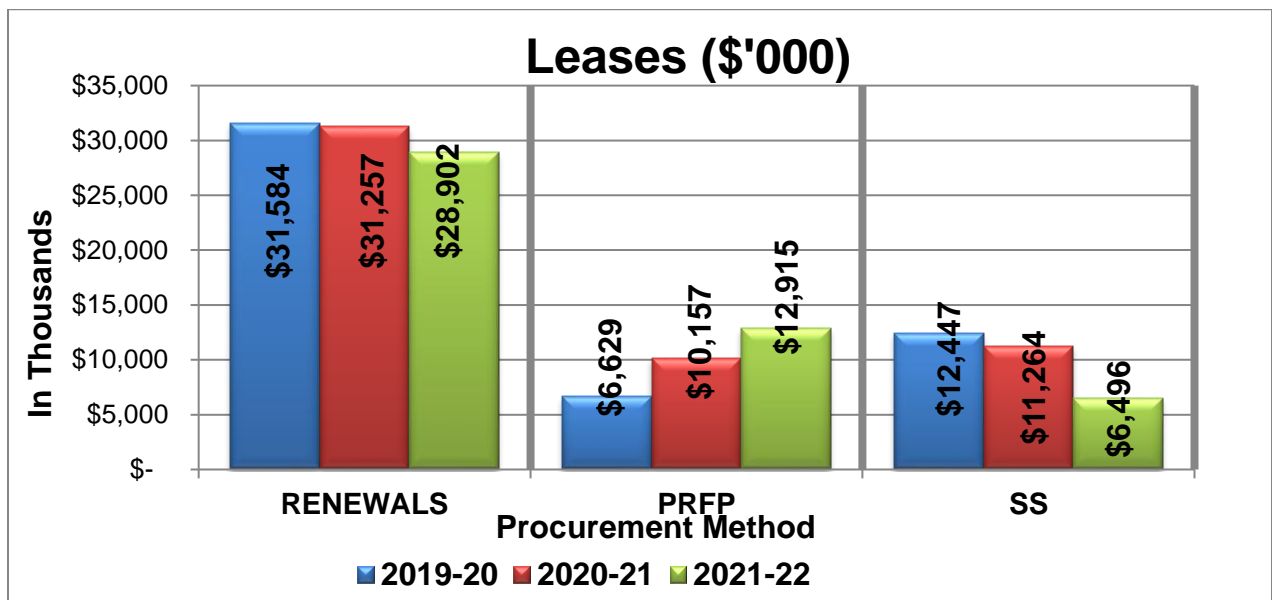

Leases acquired through Memoranda of Understanding (MOUs) are in respect of units acquired on behalf of departments of the Government of Nunavut. All new and all renewed leases are for a period between one and five years.

## CONTRACTING REPORT: 2021-2022

### Sole Source Comparison

Sole Source contracting practices are monitored closely. NHC believes it can get the best value for money through competitive bidding processes. However, there are limited instances where the GN's contracting procedures permit awarding contracts without competition. Listed below are the acceptable conditions for awarding contracts without competition:

1. The goods, services or construction are urgently required, and delay would be harmful to the public interest
2. Only one party is available and capable of performing the contract
3. The contract is an architectural or engineering contract that will not exceed \$25,000 in value or is any other type of contract that will not exceed \$5,000 in value.

## CONTRACTING REPORT: 2021-2022

### 2020-21 & 2021-22 Comparison

**Goods:** Most Sole Source contracts are for specialized software and computer services.

**Leases:** There are instances when NHC has to enter into lease agreements via sole source due to the shortage of available rental units.

**Services:** The increase in service contracts comes primarily from NHC's subscription to an online training platform for staff development.

**Maintenance:** Most Sole Source contracts were for community emergencies or specialized services.

### Terms

**Goods:** In this report, “Goods” means contracts for the purchased goods primarily entered into by Nunavut Housing Corporation using a purchase order.

**Invitational Tenders:** those tenders for which tender documents are sent to contractors or suppliers specifically selected to submit tenders.

**Public tender:** are those tenders which are publicly advertised.

**Sole source:** is best defined by setting out the criteria. The Government of Nunavut contract regulations, under the Financial Administration Act, allow sole-sourcing of contracts where a contracting authority believes, on reasonable grounds, that one of the following is applicable:

- a) The goods, services, or construction are urgently required, and delay would be injurious to the public interest; or
- b) Only one party is available and capable of performing the contract; or
- c) The contract is an architectural or engineering contract that will not exceed \$25,000; or
- d) Or any other type of contract that will not exceed \$5,000 in value.

**Request for Proposal (RFP):** has been defined as follows, “when the government knows what the end result should be, but not necessarily how best to achieve it; therefore, the government seeks proposals on methods, ability, and price. Government can thereby negotiate the best method to achieve the best value”.

**Tender:** A tender may be obtained by public advertisement or private invitation. It should be noted that, generally, the value and type of contract will determine the type of tendering to be used.
