Purpose

The Department of Community and Government Services (CGS) is pleased to present this report on the Government of Nunavut (GN's) procurement and contracting activities for the 2020/21 fiscal year.

Objective

CGS is committed to ensuring fair value and ethical practices in meeting its responsibilities. This is accomplished through effective policies and procedures aimed at:

- Obtaining the best value for Nunavummiut overall;
- Creating a fair and open environment for vendors;
- Maintaining current and accurate information; and
- Ensuring effective approaches to meet the GN's requirements.

Introduction

The *Procurement Activity Report* presents statistical information and contract detail about GN contracts as reported by GN departments to CGS's Procurement, Logistics and Contract Support section.

Contracts entered into by the GN Crown agencies and the Legislative Assembly are not reported to CGS and are not included in this report.

Contract information provided in this report reflects contracts awarded and reported during the 2020/2021 fiscal year. CGS can not guarantee the accuracy of contract information reported by departments, however, CGS makes best efforts to verify the information and ensure departments are fully aware of the reporting requirements set out in the Nunavummi Nangminiaqtunik Ikajuuti (NNI Regulations) and applicable GN policies and procedures.

Revised NNI Policy (Regulations)

In February 2021, a bid adjustment limit of \$500,000 was introduced that applied to Major Construction tenders and Design Build RFPs. This bid cap does not apply to the Labour portion of the contract.

On March 29, 2016, the Government of Nunavut approved a revised NNI Policy which came into effect as of September 7, 2017. The new NNI Regulations increased the total possible bid adjustments from 21% to 25%. This included an increase from 7% to 15% for 100% owned Inuit Firms. The statistics contained in this report include the new NNI Regulations for the 2017/18 fiscal year.

Report Overview

This report focuses on the distribution of contracts awarded to corporations, organizations and sole proprietors.

Charts and tables are used to illustrate the information presented.

CGS aims to enhance its reporting of the GN's contracting activities each year as part of its commitment to ensure transparency and accountability. Many factors can influence the comparability of data. Unusually high or low values for a given year in reported data can result from a blend of several external factors that may not necessarily be obvious to a reader including such significant items as annual variations in operating budgets or capital budgets, policy revisions and one time initiatives. Readers of this report should seek informed explanations respecting contributing factors before making judgments. Readers should not base judgments solely on the graphs and tables contained in this report, and consider the many other reports and published program information made available by the GN as well.

When viewing such comparative information, it is important to note that certain factors such as planned changes in the GN's priorities from year to year can impact the annual results. For instance, a significant level of capital projects in one year would likely reveal a high level of Public Tendering which is the typical approach when awarding large value major works projects. A reduction in major works projects the following year, however, could reveal a related decrease in Public Tenders by value which is not necessarily indicative of any change in approach in the government's procurement and contracting practices. Therefore it is important to consider the broader perspective and context before making conclusions when assessing the comparative information presented.

Each year there is a portion of contracting activities which relate directly to the GN's ongoing role in maintaining essential services and basic programs. Other contracting activities are closely aligned to the cyclical nature of the GN's capital spending commitments.

Major capital projects typically follow a period of planning which includes inception, planning and design phases prior to the period of intense construction activity. The following year would normally show a large reduction in contracting activity. Comparisons made across such years may reveal an unexpected change in the level of contracts which were competitively awarded as well as the relative percentage of contracting activities by type or method.

A year in which a number of large capital projects are entering their design phase would see an increase in the volume and value of spending activity on design contracts ("A/E"). Given that the design phases of capital projects are typically followed by construction, it would be logical to see corresponding increases in the number and value of major construction contracts awarded ("CON") in the following year.

Given that design and construction contracts are typically higher value contracts awarded through a Public RFP or Tender method, whereas other types of contracts are typically of smaller value awarded through an invitational process; a significant decrease in the infrastructure contract values with no change in the other contract values could imply an increase in Invited Tenders or Proposals even though there is no real increase in those activities.

Contract activities which relate to the GN's ongoing responsibility for maintaining basic services and safeguarding the health and welfare of Nunavummiut may warrant special measures to ensure prompt attention and immediate action. Depending on the nature, this may warrant engagement of expertise or necessary services outside the normal competitive process. This can occur where a delay would be injurious to the public interest, or where there is only one vendor available and qualified enough to perform the contract. Therefore in a year in which the level of capital spending is low, the proportion of non-competitively awarded contracts may appear high even though there has been no underlying change to the GN's procurement and contracting practices.

Readers are therefore cautioned from making specific conclusions upon reviewing the comparative information presented. As the GN's primary Contracting Authority, CGS continues to monitor and assess annual indicators, enhance services offered to clients and client departments, and review its contracting activities regularly to ensure best practices across the GN.

Sole Source Contract Observations

Sole Source contracting practices are monitored closely. The GN believes we get the best value for our money through competitive bidding processes, however, there are limited situations where the contracting regulations permit awarding contracts without competition. Section 3 of this report discusses the acceptable conditions for awarding contracts without competition.

The GN continues to review the contributing factors to contracts that have been Sole Sourced. CGS monitors the various types of contracts entered into without competition, and can offer strategic planning and other services to assist departments in decreasing their reliance on the Sole Sourcing methodology; especially where the permitted Sole Source criteria may not be met. For example, (delay would be injurious to the public interest) is sometimes misunderstood, and the criterion (there is only one party capable and available) is also sometimes relied upon without sufficient marketplace research or other appropriate data to support the request.

In 2019/20, the GN completed an RFP process for the territories requirements for Scheduled Medical Travel and Duty Travel. The process resulted in an award of two (2) contracts:

1. Calm Air for \$50,000,000.00
2. Canadian North for \$200,000,000.00

These two contract awards are reported as part of the statistics in this report. However, the actual expenditures are not part of the report. The expenditures are reported as exceptions.

Not Included in These Statistics

Note: The statistical numbers in this report do not include four (4) large categories of contracts. Those are:

	2020/2021	2019/2020	2018/2019
1. Scheduled Medical Travel	\$ 107M (est.)	\$ 101M (est.)	\$ 57M (est.)
2. Fuel (PPD)	\$ 172M (est.)	\$ 179M (est.)	\$ 174M (est.)
3. Police and Laboratory Services	\$ 54M (est.)	\$ 50M (est.)	\$ 43M (est.)
4. Physician Services	\$ 27M (est.)	\$ 23M (est.)	\$ 25M (est.)

These four high value categories total approximately \$360 million in 2020/21. Medical Travel, Fuel Resupply and Physician Services are the result of a competitive process, Police and Laboratory Services is an extension of a previous contract with the RCMP. If we include these numbers, **Sole Source** contracts would value approximately 31% of total expenditures. Eliminating these numbers from statistical analysis allows for a more detailed and closer examination of Sole Source contracts. The total value and volume of Sole Sourced contracts as a percentage of the total, had been largely decreasing since 2005/06. In 2020/21 we see a significant increase in the volume and value proportion. This is due to Sole Source contracts required to respond to the COVID-19 pandemic. See page 22 of this report for these numbers. In 2020/21 the volume of Sole Source contracts increased by 261% or 71 contracts, and the value of Sole Source contracts increased by almost 2000% or \$92.15 million.

Appendix A outlines the definitions of terms and abbreviations.

Appendix B entitled *Sole Source Listing* provides a listing of all Sole Sourced contracts by value (> \$5,000) in ascending order.

Appendix C entitled *Contract Detailed Listing* provides a listing of all contracts (> \$5,000) and is presented by Contract Type in ascending Award Value.

The intent of these appendices is to enhance transparency of GN contracting and procurement practices by presenting meaningful and useful information on a timely basis. A threshold of \$5,000 has been established to provide focus on higher value contracts.

The contract details presented in this report reflect information recorded at the time of contract issuance. Information such as the award value represents the upper limit of a contract as established and agreed by the parties. It should be noted that the disclosure of proprietary information is typically restricted as the release of same may prove harmful to private sector interests and could expose the GN to legal and financial claims. CGS continues to operate under the advice and direction provided by the Department of Justice in this regard.

Scheduled Medical Travel

The detailed lists in Appendices B and C do not include the value of Scheduled Medical Travel awarded by the Department of Health. At the request of Members of the Legislative Assembly, we are providing a breakdown of dollar amounts spent in each fiscal year with each of the carriers for non-emergency medical travel:

Airline	2020/2021	2019/2020	2018/2019
Calm Air	\$ 17,552,846	\$ 23,692,218	\$ 21,539,147
Canadian North*	\$ 53,174,218	\$ 19,777,245	\$ 13,336,304
First Air	\$ 14,756	\$ 15,354,413	\$ 21,406,627
Keewatin Air Limited	\$ 36,375,479	\$ 42,911,948	\$ 766,484
Total:	\$ 107,117,298	\$ 101,735,824	\$ 57,048,563

* Reflects the airline merger of Canadian North and First Air in 2020/21.

Fuel Re-supply

The following companies were awarded contracts for the fuel re-supply:

Company	2020/2021	2019/2020	2018/2019
5140 Nunavut Ltd.	\$ 32,375	-	-

Contracts Awarded by Executive Council

The Standing Committee on Government Operations and Accountability has recommended that Government record and disclose contracts entered into by Executive Council in this annual report. Government is able to confirm that there were **no** contracts awarded by Executive Council for the reporting period.

Negotiated Contracts

During the fiscal year 2020/21 there were no negotiated contracts.

COVID-19

COVID-19 – On or about the third week of March 2020, COVID-19 pandemic plans were rapidly unfolding. The establishment of travel isolation hubs were being organized however contract amounts were uncertain and up to March 31, 2020, invoices had not yet been received. COVID-19 contracts and figures start to be reported in the 2020/21 CAR and PAR reports. As will be further analysed throughout this report, the impact of the COVID-19 pandemic has altered many long standing contract trends. In general, the total volume of contracts has increased. The value and volume of Sole Sourced contracts have risen significantly, and the total value and volume of Purchase Order contracts is up.

In the fiscal year 2020/21, there was a total volume of 115 Sole Source contracts. Of that total, 34 or 30% were required to provide goods and services to battle COVID-19. The total value of the COVID-19 related Sole Source contracts is \$88.18 million. This accounts for 91% of the total value of Sole Sourced contracts. These COVID-19 Sole Sourced contracts include medical supplies such as masks, hand sanitizers, test kits, air transportation, and COVID-19 isolation hub hotels. The hub operators include hotel facilities, rooms, food, security services and transportation services.

Isolation Hubs and Sole Sourced Contracts

During the weekend of March 20-22, 2020, GN staff began to put into place the required services, so that Isolation Hotels or Isolation Hubs could be established at air entry points into Nunavut. These hubs were being set-up in Ottawa, Edmonton, Winnipeg, and Yellowknife.

As COVID-19 spread throughout Canada, most businesses sent staff home. Many hotels were closed, kitchen staff, cleaning and administrative staff were all sent home. Many hotels in the 4 hub cities were called to assist the GN but the common response was they could not assist because their locations were closed, and staff were sent home.

In Ottawa, a call was made to the Ottawa, Gatineau Hotel Association (OGHA). The OGHA sent a message out to all hotels in Ottawa/Gatineau. The first hotel that was able to offer the required services was the Marriot Residence Inn in Ottawa. They were able to have their staff return to work and offer 90 rooms. The security company that was servicing the hotel was the Arlington Group. The Arlington Group continued to offer the security services for the Ottawa hub as they were already contracted to provide security for the hotel.

In Yellowknife, the owners of the Explorer Hotel are also the owners of the Frobisher Inn in Iqaluit, NU. They are familiar with Inuit clients, and they offered the services of their hotel. The Explorer Hotel was using the security services of Twilite Logistics. The GN contracted Twilite Logistics to continue to provide the security required.

In Winnipeg and Edmonton, after many unsuccessful calls to hotels in Winnipeg, the Winnipeg Hilton was able to call staff back to work and offer services. They were also able to offer services in Edmonton through their sister company, the Holiday Inn. The Winnipeg Hilton and the Edmonton Holiday Inn were not able to provide the required security services and informed the GN that we would need to find a security company. The owner of the Arlington Group in Ottawa offered to work with security companies in Winnipeg and Edmonton, and offer a consistent security program in Ottawa, Winnipeg, and Edmonton.

By the end of day Sunday March 22, 2020, contracts and agreements were largely established to provide hotel rooms, 3 meals a day, security services and transportation in the four Nunavut entry points of Ottawa, Winnipeg, Edmonton, and Yellowknife. While the contracts for services were being put into place, procedures for tracking and registering travellers into the hub programs were being developed. Many health staff were reassigned as required. The administrative effort and procedures required for the Isolation Hub programs were critical and detailed.

These Isolation Hubs are all classified as Sole Source Emergency contracts. The normal procurement tendering process would not have allowed the Isolation Hubs to be established in the emergency time frame required. In most situations multiple vendors were contacted in each of the Hub city locations. In Ottawa, the entire OGHA was notified of the opportunity. Where possible, the established Hotel contractors for security, food, transportation etc. were maintained.

The first Isolation Hub guests entered the Hubs on March 25, 2020. These were the students that are part of the FANS program.

Since March 25, 2020, to February 2022, we have had over 21,000 people complete isolation at the Isolation Hubs.

The Isolation Hubs have become an integral part of Nunavut's programs to protect Nunavummiut from COVID-19. Through the efforts of the Isolation Hub program, Nunavut remained COVID-19 free for the first eight (8) months of the pandemic.

Since March 25, 2020, the Isolation Hub operators have been continually changed and improved to make the Isolation experience less unpleasant for Isolation guests. From the beginning, there were no established protocols or procedures in existence for the management of "COVID-19 Isolation Program". The overall goal of the Hub program was to provide the necessary supports to allow Nunavummiut to be able to successfully complete the required Isolation time so they could return home safely to their communities. The program has grown to include not only lodging, meals and security but also nursing services, cultural programs, mental wellness supports and expedited medical travel programs to enable specialist medical appointments.

Critical Strategic Partners

After the Hubs had been in operation for approximately 12 weeks, the GN reached-out to the Qikiqtaaluk Corporation (QC) for assistance with the operations of the Isolation Hubs. The partnership with QC has been a strategic success in the continued Hub operations. QC has been able to provide significant administrative support to the program. These services have included on-site Hub managers, interpreters, and Inuktitut speaking staff at all Hub locations. The strategic partnership between the GN and QC has been a huge success and a key component of the Hub program delivery.

General Observations

This Procurement Activity Report (PAR) and the sister report, Contract Activity Report (CAR) are both composed of data from the same database. Contract information is reported from all departments of the Government of Nunavut. It is quite possible that as the contract information is entered into the database, that some human error will occur. The Department of Community and Government Services (CGS) makes best efforts to verify the accuracy and completeness of the dataset. We use various sources of external information (Freebalance, Requisition Log and Contract Management Listing) to verify the data. It is virtually impossible to assure 100% accuracy. However, even though it is a less than perfect system, we can rely on many repetitive, multi-year trends in the data analysis. This next section of the report will make a brief synopsis of the statistical results for the fiscal years 2018/19, 2019/20 and 2020/21 and will also outline some of the multi-year trends.

The actual **volume** of contracts (number of contracts issued) increased by 21% from 2019/20 to 2020/21, and decreased by less than 1% from 2018/19.

The actual **value** of contracts decreased by 12.4% from 2019/20 to 2020/21 and decreased by 11% compared to 2018/19.

For 2020/21 the department with the largest **volume** of contracts is Health (HLTH) with 27% followed by Community and Government Services (CGS) at 23%. In the previous two years of this report, CGS had the largest volume of contracts. In 2020/21 we see the increased Health volume due to the Government of Nunavut's response to the COVID-19 pandemic.

For 2020/21, the department with the largest **value** of contracts is Health at 40% of the total followed by CGS with 26% of the total value of all contracts. This trend is consistent for the three years of this report.

In the last fiscal year 2020/21, the most common method of awarding contracts, by **volume**, is through Public and Invitational Tenders and RFP's (71%). This percentage was 76% in 2019/20. The three year average is 75%.

53% of the total **value** of all contracts is the result of some form of competitive bidding in 2020/21. This is a decrease of 31% from 2019/20. The decrease in the value of contracts from competitive bidding is due to the increase of Sole Source contracts in response to COVID-19. The three year average is 73% value of contracts is a result of competitive bidding.

In 2020/21, the combined **volume** of Sole Source and Sole Vendor contracts is up by 46% (or 254 contracts) and the value of combined Sole Source and Sole Supplier contracts is up by 171%, or \$140 million. This increase is largely due to COVID-19.

Multi-Year Trends – Sole Source and Sole Vendor Contracts

Emergencies in communities will always require the use of Sole Source contracts. In 2020/21, the Department of Health Sole Sourced many contracts in response to COVID-19. If not for the emergency contracting provision of the government contracting regulations, Health would not have been able respond to the emergency without delay. This illustrates the correct and appropriate application of the Sole Source criterion “delay would be injurious to the public interest” and is precisely why the regulations permit such a practical approach. In this report, a contract awarded under the emergency award provisions of the contracting regulations are identified as “SE” in Appendix C, and are included with the Sole Source (SS) figures in the tables in section 4 (Sole Source contract distribution).

The contracting regulations also allow the Sole Sourcing of design services under \$25,000 (AE), and any other type of contract under \$5,000. This report does not analyse contracts under \$5,000, however A/E contracts under \$25,000 are identified as “SA” in Appendix C.

The final criterion in the contracting regulations where awarding contracts without competition is permitted, (SV) or (only one qualified vendor is capable and available) is more difficult to quantify, and therefore applied with the most subjectivity. CGS recommends that the best way to substantiate availability of qualified contractors and consultants, is to go to the marketplace and request competitive bids. Sole Source (SS) and Sole Vendor (SV) contracts often cancel each other out from year to year. As the volume of Sole Source contracts trends downwards, the volume of Sole Vendor contracts often increases. The values and volumes for these contracts are presented separately in the tables in section 3 and 4.

Sole Vendor (SV) contracts typically include orders for Alcohol Products (for resale), Corcan Office Furniture, Software Updates, Support Services and Intellectual Property such as Specialized Training Courses and Educational Materials.

A sixteen (16) year average (since 2005/06) indicates that 29.4% of the total volume of contracts, are not competitively tendered. The yearly percentage of contracts not competitively tendered has been decreasing from a high of 38% in 2005/06 to 22% in 2017/18. In 2020/21 we see an increase due to the COVID-19 pandemic. We can expect this increasing trend to continue into 2021/22.

For contracting type by value, we see some twelve year trends:

- Architectural & Engineering composes 1-5% of total value.
- Minor Construction and Maintenance composes 2-5% of total value.
- Purchase Orders make up 7-11% of total value prior to 2020/21. However in 2020/21 we see the trend end. Purchase Orders made up 37% of value. This eleven year change is due to COVID-19 related contracts.

For contracting type by volume we see some ten year trends:

- Architectural & Engineering composes 1-2% of contract volume.
- Minor Construction and Maintenance composes 2-5% of contract volume.
- Air Charters compose 5-8% of contract volume.
- Purchase Orders had been relatively consistent at 26-30% of volume of contracts however, in 2020/21 they compose 37% of contracts.
- Major Construction contracts compose 1% of volume.

Over the last eleven (11) years, the volume of Air Charter contracts has been relatively consistent at 5-8% of the volume of all contracts.

Since 2013/14 to 2019/20, roughly 14-17% of the volume of all Service Contracts has been for employee relocation moving services. In 2020/21 this has fallen to 10%.

For the last ten (10) years Service Contracts and Purchase Orders combined represent the largest **volume** of contracts.

Summary

1. All Contracts (> \$5,000)

The charts below “Government of Nunavut Contracting Value” summarizes the distribution of contracts awarded by value (or contract dollars) and volume (or quantity).

Government of Nunavut Contracting Value and Volume 3-Year Comparison

The *Procurement Activity Report* has been produced for the past nineteen (19) fiscal years. The two (2) charts above illustrate how the GN's contracting activities have changed over the past three (3) years and are further supported by the details provided in the following table. The total value of contracts for 2020/21 shows a decrease from the previous year of 12.4%. In terms of volume, the number of contracts issued in 2020/21 represents a 21.2% increase compared to the number of contracts awarded in 2019/20 and largely similar to 2018/19.

The Average Contract Value shows a decrease by 11% over the last three (3) fiscal years. An analysis of Appendix C compared to the charts presented in this report, and those from past fiscal years will indicate areas where spending has increased or decreased. The impact of COVID-19 related contracts has caused an increase in the number of contracts but a decrease in the average value of individual contracts.

All Contracts

Type	2020/21	2019/20	2018/19
Number of Contracts	2,735	2,256	2,745
Total Value (Thousands)	\$ 488,964	\$ 558,253	\$ 549,724
Avg Contract Value	\$ 179	\$ 247	\$ 200

The chart below “Government of Nunavut Department Distribution – Value” summarizes the distribution of contracts by department.

**Government of Nunavut
Department Distribution – Value
2020/21**

The chart above shows the level of contract activities each department engaged in during the 2020/2021 fiscal year. Not surprisingly, those departments with responsibility for overseeing Nunavut's infrastructure development, health, and emergency services engaged in higher levels of contract activities. Services are often needed in order to address the needs of Nunavummiut, fulfill departmental mandates and meet client service expectations and needs.

**Total Contract Distribution by Department – Value
(Thousands)**

Department	2020/21		2019/20		2018/19	
Community and Government Services (CGS)	\$ 128,026	26%	\$ 141,038	25%	\$ 104,635	19%

Justice (JUS)	5,382	1	5,384	1	4,455	1
Total	\$ 488,965	100%	\$ 558,253	100%	\$ 549,724	100%

In 2020/21, we saw a decrease of \$69,288,000 or 12.4% from 2019/20.

In 2019/20, we saw an increase of \$8,529,000, or 1.6% from 2018/19.

In 2018/19, we saw an increase of \$10,368,000 or 2% from 2017/18. In 2017/18 we saw an increase of \$163,130,000 or 43%.

Over the three (3) years of this report we see an increase in spending of 11%. Please reference the full list in Appendix C of this report.

In 2019/20, the Department of Community and Government Services awarded the Construction of a New Health Centre in Kinnait and Water Systems in Resolute Bay. The contracts account for \$39 million in the awards.

In 2018/19, we see a significant increase in spending by the department of Economic Development and Transportation (ED&T). This spending included large infrastructure projects such as Marine Infrastructure projects in Iqaluit and Pond Inlet and other airport improvement projects.

The chart below “Government of Nunavut Department Distribution – Volume” illustrates the distribution of contracts by department.

**Government of Nunavut
Department Distribution – Volume
2020/21**

In the fiscal year 2020/21, the volume of contracts has increased by 21.2%. This is a significant increase in contract activities. Much of this increase is due to contracts required to respond to the COVID-19 pandemic.

In the fiscal year 2019/20, the volume of contracts decreased by 18%.

In the fiscal year 2018/19, the volume of contracts has increased by 7%.

Over the three (3) years covered by this report, we have seen less than 1% decrease in the volume of contracts.

The Departments of Health and Community and Government Services represent the highest level of contracting activity attributable to the Specialized Goods and Services required to meet the needs of Nunavummiut.

Total Contract Distribution by Department – Volume

Department	2020/21		2019/20		2018/19	
Community and Government Services (CGS)	618	23%	651	29%	701	26%
Culture and Heritage (CH)	53	2	67	3	88	3
Economic Development and Transportation (EDT)	191	7	109	5	119	4
Education (EDU)	304	11	407	18	385	14
Executive and Intergovernmental Affairs (EIA)	18	1	16	1	68	2
Environment (ENV)	162	6	140	6	172	6
Family Services (FS)	290	11	117	5	260	9
Finance (FIN)	80	3	83	4	178	6
Human Resources (HR)	153	6	42	2	-	-
Health (HLTH)	730	27	504	22	670	24
Justice (JUS)	136	5	120	5	104	4
Total	2,735	100%	2,256	100%	2,745	100%

Most of the contracts for CGS support the ongoing operations of Government departments. These include “As and When” contracts for building and vehicle maintenance, snow removal, fuel and a significant volume of contacts for ongoing Information Technology Services.

For the Department of Family Services, a majority of their contracts are composed of Specialized Residential Care Services for individual clients.

In 2020/21, we see a significant increase in the number of contracts for the Department of Health. The increased volume represents an increase of 45% over the 2019/20 numbers. This represents a three year high.

In 2019/20, all departments except Education and Justice saw a decrease in the volume of contract activity. In 2018/19 the departments of Family Services and Finance saw the largest increase in contract volumes, 56% and 41% respective increases.

2. Contracting Types

The chart below “*Government of Nunavut Contracting Value*” summarizes the distribution of contract values by type.

**Government of Nunavut
Contracting Types – Value
2020/21**

The pie chart above shows that the categories of contracts that represent the largest spend are Service and Construction contracts. Appendix “C” lists all contracts over \$5,000.

In 2020/21 we see the value of all contract type value totals has decreased with the exception of Purchase Orders. The value of Purchase Orders has increased by almost 400%. This is largely due to contracts put into place to respond to the COVID-19 pandemic.

In 2019/20 to 2020/21 we see another three year low in the volume of Major Construction.

In 2019/20 we see an increase in overall contract value by 1.6%. However over the three (3) years of this report, the overall value of contracts has decreased by 11%.

In 2019/20 we see a three year low in the value of Major Construction. In 2019/20 the GN awarded contracts worth \$25.88 million for a new Health Centre in Kinnigait and Water System Improvements in Resolute Bay, Kugaaruk and Chesterfield Inlet worth a combined total of \$13 million.

In 2018/19, the Iqaluit Correctional Healing Centre was awarded for \$73.5 million. This figure is not included in the charts and graphs as it would skew the annual trend analysis. Other large infrastructure construction included the award of the Iqaluit Marine Port for \$64.7 million.

Air Charter contracts may include contracts for any of the following:

- Court Travel, 18% of volume in 2013/14, 26% in 2014/15, 19% in 2015/16, 33% in 2016/17 and 16% in 2017/18, 26% in 2018/19 and 30% of the volume in 2019/20.
- In support of PPD operations, 14% of volume in 2013/14, 19% in 2014/15, 7% in 2015/16, 5% in 2016/17 and 9% in 2017/18, 10% in 2018/19 and 11% of the volume in 2019/20.
- Dental/Medical charters, 11% of volume in 2013/14, 23% in 2014/15, 13% 2015/16, 10% in 2016/17 and 15% in 2017/18, 8% in 2018/19 and 7% of the volume in 2019/20.
- Wildlife Surveys, 11% of volume in 2013/14. In 2014/15, the volume for ENV was 5%, 4% in 2015/16, 8% in 2016/17 and 9% in 2017/18, 8% in 2018/19 and 5% of the volume in 2019/20.
- In 2020/21, the composition of Air Charters had an additional category. This category was COVID-19 related flights. In 2020/21, there were 27 Air Charters or 17% of the volume. We also saw a decrease in court travel to 9% as many court sessions were cancelled due to COVID-19. We also saw an increase in the volume of Air Charters required for PPD inspections. The inspectors could not travel on the sealift vessels due to COVID-19 and had to travel on Air Charters. The percentage volume of charters for Wildlife Surveys and Dental Charters remains unchanged at 11%.

Contracting Types – Value (Thousands)

Type	2020/21		2019/20		2018/19	
Air Charter (AC)	\$ 5,643	1%	\$ 7,981	1%	\$ 5,576	1%
Architectural/Engineering (AE)	7,825	2	5,163	1	25,585	5
Construction (CON)	21,523	4	61,811	11	130,325	24
Consulting services (CS)	26,622	5	46,342	8	82,393	15
Minor Construction or Maintenance Services (MC)	20,081	4	21,526	4	13,604	2
Purchase Orders (PO)	180,660	37	45,325	8	41,029	7
Service Contracts (SC)	226,610	46	370,106	66	251,212	46
Total	\$ 488,964	100%	\$ 558,254	100%	\$ 549,724	100%

Refer to Appendix “C” for a detailed contract listing.

The chart below “Government of Nunavut Contracting Types – Volume” illustrates the distribution of contracts by type.

Government of Nunavut Contracting Types – Volume 2020/21

Contracting Types – Volume

Type	2020/21		2019/20		2018/19	
Air Charter (AC)	126	5%	142	6%	131	5%
Architectural/Engineering (AE)	17	1	8	-	19	1
Construction (CON)	16	1	19	1	16	1
Consulting services (CS)	196	7	382	17	742	27
Minor Construction or Maintenance Services (MC)	85	3	74	3	62	2
Purchase Orders (PO)	1,000	37	633	28	794	29
Service Contracts (SC)	1,295	47	998	44	981	36
Total	2,735	100%	2,256	100%	2,745	100%

Over the last thirteen (13) years, the volume of Air Charter contracts has been constant at 5-8% of the total of all contracts. However, the value has varied significantly from year to year.

Contracts for Residential Care Services are awarded by the Departments of Family Services and Health. In total, approximately two hundred twenty-eight (228) contracts were for this service in 2017/18, and two hundred ninety (290) in 2018/19 and two hundred seven (207) in 2019/20, and 383 in 2020/21.

One of the larger portion of Service Contracts is composed of moving services to move Government employees into and within Nunavut. A seven (7) year trend shows that Employee Relocation Services comprises approximately 15% of the Service Contract volume which is composed of a volume of approximately one hundred forty-two (142) moves in 2019/20. In 2020/21, the number of Service Contracts to move Government employees was down slightly to 132 contracts and 10% of the total volume of contracts.

3. Contracting Methods

The chart below “Government of Nunavut Contracting Methods – Value” summarizes the distribution of contracting method by value.

**Government of Nunavut
Contracting Methods – Value
2020/21**

The definitions for the various contracting methods can be found in Appendix A of this report.

Public Tenders and Request for Proposals processes continue to represent the most significant contracting method employed by the GN. The GN believes that best value is received for goods and services through the public competitive tender process.

As in most jurisdictions, the awarding of contracts on a non-competitive basis is understandably limited to specific situations and must be appropriately justified and approved.

Compared to other award methods, the values for Invitational Tenders and Invitational RFP's appears small because only contracts under \$25,000 and Construction under \$100,000 are awarded through an invitational process. Contracts of a higher value must be awarded through a public process, therefore values for Public Tender and Public RFP's are higher.

The Request for Proposals process is generally recommended to enter into Consultant and Service Contracts. Tender processes are used for Goods, Construction and Maintenance purchases.

Contracting Methods – Value (Thousands)

Method	2020/21		2019/20		2018/19	
Extensions (EXT)	\$ 9,853	2%	\$ 7,620	1%	\$ 14,877	3%
Invitational RFP (IRFP)	526	-	1,241	-	1,831	-
Invitational Tender (IT)	4,583	1	5,998	1	6,854	1
Public RFP (PRFP)	184,892	38	367,189	66	280,394	51
Public Tender (PT)	66,981	14	94,273	17	151,061	27
Sole Source (SS & SE)	96,755	20	4,609	1	6,445	1
Sole Supplier or Vendor (SV)	125,375	26	77,323	14	88,262	16
Total	\$ 488,965	100%	\$ 558,253	100%	\$ 549,724	100%

Over the last sixteen (16) years of this report, the overall volume and value of contracts that are not competitively tendered (SS, SE and SV) generally continues to decrease, as a percentage of the total. These contracts are classified as Sole Source (SS) and Sole Vendor (SV) Contracts generally continues to decrease. See trending figures below. The following figures represent the combined Sole Source and Sole Vendor (non competitive) process.

In 2020/21, we see a change in the trend. COVID-19 conditions has necessitated the GN to Sole Source many contracts to battle the pandemic. Thirty (30%) of the volume of all Sole Source contracts were COVID-19 related. The total volume of Sole Source contracts is up by 46% to a 16 year high of 803 Sole Source contracts. This represents a 16 year high.

In 2019/20, the value of contracts not competitively tendered was down by 14% and the volume is down by 15.5%, as compared to 2018/19. A closer look at the 2019/20 volume of Sole Vendor contracts shows that specialized contracts for Residential Care comprised 22% of the volume, 7% Liquor Orders, 9% for Information Technology License Renewals, 3% to Hamlets in Nunavut for services delivered and 6% for training courses.

In 2018/19 the value of contracts not competitively tendered is up by 89% and the percentage volume of contracts is up by 13%.

A closer look at the volume of Sole Vendor contracts shows that in 2018/19 specialized contracts for Residential Care comprised 26% of the volume, 10% for liquor orders, 10% for information technology license renewals, 5% to the various Hamlets of Nunavut for services and 6% for training courses.

In 2017/18 the value of contracts not competitively tendered is down by 18%. And the percentage volume of contracts is down by 1%. In 2017/18 we see that the percentage volume of Sole Source contracts has reached an eleven year low of 22% and the value has reached an overall low of 9%.

A sixteen (16) year analysis shows, on average, the GN awards twenty nine percent (29%) contracts per year that are not competitively tendered. These represent 21% of contract values.

The GN needs to continue efforts to decrease the use of Sole Vendor contracting methods. The Government believes we obtain the best value for our public dollars through competitive procurement practices.

Sole Source and Sole Vendor Contract Trends

The following is a list of combined Sole Source and Sole Vendor totals by volume and value over the last 16 years. These numbers do not include contract extensions. Many contract extensions are the result of an initial competitive procurement process.

Year	Volume	%	Value	%
2020/21	803	29%	222,130	46%
2019/20	549	24%	81,932	15%
2018/19	650	23%	94,707	17%
2017/18	576	22%	50,105	9%
2016/17	564	23%	60,834	16%
2015/16	520	26%	56,000	14%
2014/15	471	24%	53,511	19%
2013/14	550	29%	38,402	11%
2012/13	475	26%	42,258	12%
2011/12	530	28%	61,462	17%
2010/11	570	31%	58,114	21%
2009/10	597	33%	55,480	24%
2008/09	576	38%	61,409	22%
2007/08	563	39%	51,432	27%
2006/07	403	38%	33,454	26%
2005/06	370	38%	33,095	37%

In 2019/20 the GN experienced two unprecedented events. The first was “Ransomware” in November 2019 and the second was in March 2020, COVID-19 pandemic. The ransomware event resulted in approximately 15 Sole Vendor contracts worth an estimated \$2.1 million. The beginning of the COVID-19 pandemic resulted in 5 Sole Source contracts worth approximately \$5 million. The impact of the COVID-19 pandemic is largely reflected in the 2020/21 fiscal year.

Historically, the volume of not competitively tendered contracts as a percentage of the total volume decreased from 2007/08 to 2012/13. However the volume increased by 3% in 2013/14. This is largely due to books and curriculum materials purchased by the Department of Education to support a new curriculum. These books and materials are protected by copyright. While the volume increased in 2013/14, the overall value as a percentage of the total decreased by 1% from 12% to 11%. In 2014/15 the volume continues to decrease however, the value had jumped to 19%. This is largely due to thirty-four (34) contracts awarded by the Department of Economic Development and Transportation worth an estimated value of \$16 million for Airport Operations and Maintenance and Aerodrome activities. All of these contracts, categorized as Sole Vendor (SV). In 2015/16 we see the volume increased to 26% but the value decreased to 14%. In 2016/17, the total volume and value have increased. However as a percentage of the volume of all contracts, the volume has continued to decrease. This trend continues from 2016/17 to 2019/20. For the last three years, Sole Source/Vendor is relatively steady at 24%.

The chart below “Government of Nunavut Contracting Methods – Volume” illustrates the distribution of contracting methodology.

Government of Nunavut Contracting Methods – Volume 2020/21

Generally, 60-70% (73% in 2018/19 and 76% in 2019/20 and 71% in 2020/21) of the volume of contracts are the result of a competitive process. Note that in some circumstances, extensions of contracts may be considered competitive process if they were originally part of a competitive process; therefore not all extensions are non-competitive.

It is also worthwhile to note that more departments are using the services of CGS Purchasing, Logistics and Contract Support to award their contracts through a competitive Tender or RFP process. CGS’s Procurement, Logistics and Contract Support Services section continues to work with departments to decrease the use of Sole Source and Sole Vendor criteria to award contracts.

Contracting Methods – Volume

Method	2020/21		2019/20		2018/19	
Extensions (EXT)	22	1%	22	1%	97	4%
Invitational RFP (IRFP)	8	-	21	1	36	1
Invitational Tender (IT)	156	6	196	9	240	9
Public RFP (PRFP)	1,376	50	1,079	48	1,484	54
Public Tender (PT)	370	14	389	17	238	9
Sole Source (SS)	115	4	44	2	41	1
Sole Supplier or Vendor (SV)	688	25	505	22	609	22
Total	2,735	100%	2,256	100%	2,745	100%

Contracting without delay for competition, in emergency circumstances, where public safety and or continued service to public may otherwise be hampered, represents the proper use of the Sole Source contracting method. These emergencies are not predictable. Sole Source contracts are necessary for Goods and Services to avoid public harm.

Sole Source methods are of concern. Senior Managers and Directors need to continue to be conscious of this and plan to avoid Sole Source and Sole Vendor contracts where possible. GN Procurement Guidelines as well as the FAA (Financial Administration Act) clearly define the acceptable conditions for Sole Sourcing. Sole Sourcing is primarily a tool for dealing with emergency situations and public safety.

The next section of this report discusses the GN’s Sole Sourcing activities in further detail. A detailed review of Appendix B will indicate where GN departments are using Sole Sourcing to assist them with implementing their mandates.

4. Sole Source Contract Distribution

As a procurement section, we strive to achieve the maximum value for the Government of Nunavut. This is only possible through the competitive, public bidding process. GN procurement guidelines as well as the Government Contract Regulations set out the acceptable conditions for awarding contracts without competitive bidding (Sole Sourcing). Procurement guidelines explain the GN contracting regulations and provide restrictions for when a contract can be awarded without competition.

Sole Source contracting is allowed where a contract authority believes, on reasonable grounds, that one of the following conditions is applicable:

- (a) the Goods, Services or Construction are urgently required and delay would be injurious to the public interest; or
- (b) only one party is available and capable of performing the contract; or
- (c) the contract is an architectural or engineering contract that will not exceed \$25,000, or the contract is any type of contract that will not exceed \$5,000 in value.

Section 4.3 (c) of the regulations is the easiest to implement because it requires only a 'yes/no' answer. Is the contract over \$5,000? If not, it does not fall within the 'under \$5,000 criterion'. Is it a contract for Architectural/Engineering Services under \$25,000? If not, then it does not fall within the 'AE under \$25,000' criterion.

Sections 4.3 (a) and (b) of the regulations, however, are more difficult to implement because they are subject to interpretation of what constitutes 'public injury' or 'capable and available'.

Section 4.3 (a) of the regulations can be somewhat tricky in that many contracting authorities believe that public well being, in addition to health and safety, are legitimate factors to consider when deciding not to go to competition. For example, it may be more beneficial to a community to Sole Source or Invite Tenders for Major Works contracts rather than Publicly Tender, when missing sealift can sometimes delay final delivery of a facility for 2 full years. In some cases, this may be a reasonable approach; however, it should not be the only alternative if project schedules fall behind due to a lack of strategic planning and project coordination.

In some situations it is not advisable to issue a competitive call for tenders or proposals, by invitation or advertisement. In these situations, the delay caused by the tender or RFP process would be harmful to person(s) or end users of the good or service. These are emergency situations where, if the government doesn't act immediately, there will be some form of public harm or injury. Where there is a true emergency, such as the risks to water supply or a search and rescue operation, it is quite easy to recognize, and reasonable to implement. In a true emergency, there is no time for a competitive procurement process. This is not to say that all emergencies or public harm is strictly a health and safety hazard. Indeed, many situations call for government action to improve the emotional health and well being of the public as well.

The COVID-19 pandemic has represented a public emergency challenge where Sole Source contracts have been required to quickly respond to the changing and aggressive nature of the health crisis. These contracts have included Isolation Hub Services, Air Charters, Medical Supplies and many Service and Consulting Contracts.

Section 4.3 (b) of the regulations on the other hand, can be especially difficult to manage as it is open to wider interpretation and, therefore, susceptible to much broader use. There are many circumstances, however, that do legitimately fall within the s.4.3 (b) criterion, and these are true 'Sole Vendor' situations. Situations involving licenses, software maintenance, patents and intellectual property or the purchase of a part component for equipment, (such as a valve or pump to repair a fuel delivery truck or fire engine, or plow parts for snow clearing equipment). Situations that do not warrant a competitive process, because there are no other manufacturers or suppliers of the specific product, are true Sole Vendor circumstances. For instance, NorthwTel is the Sole Vendor of land-line telephone services in Nunavut; QEC is the Sole Vendor of electricity. These are situations where there truly are no other service providers to engage in competition.

This is not to say that a 'Sole Vendor' situation applies when purchasing many commodities. In fact, when purchasing vehicles and or other products such as photocopiers and fax machines, etc., the GN must avoid the use of brand specific names. Requests for Tenders and Proposals must always indicate that the GN will accept bids for similar or equivalent products so long as they meet the quality and functional requirements that are established in the request.

In some cases, it may be perceived by departments to be reasonable to rely on this clause to maintain delivery of critical programs and services at levels expected by the public or internal client departments (specialized professional services; such as licenses, medical professionals and services). In many cases, departments need to bring in specialized skill sets to design programs to meet responsibilities owed to the public and oversee that program's delivery. Sometimes departments simply need to keep up with demand in delivering basic services to internal clients. In this situation, the interpretation of 'only one party capable and available' can be too broad, and the criterion is likely being relied upon for convenience in lieu of a potentially lengthy and complex RFP process.

The GN believes that best value is received for public dollars through open, fair and transparent competitive procurement processes. Furthermore, CGS believes that the best way to determine a supplier's qualifications, availability and value is to seek their proposals on solution, implementation and price, and to evaluate their past experience and qualifications against defined and measurable standards.

The public's satisfaction with a department's performance and service levels, in any given program at any given time, will always be an indicator of good value for public money. In all cases where a department is considering entering into a contract under s.4.3 (b) of the contracting regulations, CGS Purchasing, Logistics and Contracts Support is available to provide assistance on alternative contracting approaches. Where departments have already entered into s.4.3 (b) contracts, Purchasing recommends referring to the GN's Personal Service Contracts directive for further guidelines.

The chart below “Government of Nunavut Sole Source Contract Distribution – Value” summarizes the distribution of contracting method by department.

**Government of Nunavut
Sole Source Contract Distribution – Value
2020/21**

It should be noted that certain functions and responsibilities that are unique to certain departments lead to a higher propensity for this contracting method. Emergency situations with health and safety considerations or search and rescue may produce a need to enter into a contract quickly or limit alternatives or options for supply sources. Urgent situations involving the delivery of capital projects in the environmentally sensitive areas of sewage treatment, solid waste management, fuel spills and potable water have been contributing factors for Sole Source contracts on occasion. The arctic environment and a short Construction season serve to complicate project delivery and contracting options. Good planning and project management practices help to alleviate the necessity to rely on Sole Sourcing.

In 2020/21 the volume of Sole Source contracts has increased by 261% and the value has increased by 20-fold. This dramatic increase is due solely to the impact of COVID-19 related contracts.

Fourteen Year Sole Source Trend – Decrease

Value of Competitively Awarded Contracts (not including contract extensions) as a percent of all contracts:

07/08	08/09	09/10	10/11	11/12	12/13	13/14	14/15	15/16	16/17	17/18	18/19	19/20	20/21
53%	62%	70%	76%	79%	86%	83%	77%	85%	82%	85%	80%	84%	53%

Value of Sole Source Contracts as a percent of all contracts:

07/08	08/09	09/10	10/11	11/12	12/13	13/14	14/15	15/16	16/17	17/18	18/19	19/20	20/21
25%	17%	14%	13%	9%	7%	5%	4%	2%	3%	2%	1%	2%	20%

Volume of Competitively Awarded Contracts as a percent of all contracts:

07/08	08/09	09/10	10/11	11/12	12/13	13/14	14/15	15/16	16/17	17/18	18/19	19/20	20/21
59%	60%	63%	63%	68%	71%	64%	71%	72%	75%	72%	73%	75%	70%

Volume of Sole Source Contracts as a percent of all contracts:

07/08	08/09	09/10	10/11	11/12	12/13	13/14	14/15	15/16	16/17	17/18	18/19	19/20	20/21
36%	29%	23%	22%	20%	20%	14%	9%	6%	3%	2%	1%	1%	4%

The overall thirteen (13) year trend, 2007/08 to 2019/20, shows a significant decrease in both the values and volume of Sole Source contracts, however in 2020/21 the value of competitively awarded contracts as a percentage of all contracts is only 53% and the volume of Sole Sourced contracts is at 4%.

Note that the “Sole Vendor” contracts are not included in this analysis. See section 3 of this report for analysis which includes “Sole Vendor” contracts. Extensions are a continuation of previously awarded contracts where the terms and conditions allow for the contract to be extended. These contracts are included in Appendix C.

Sole Source Contract Distribution – Value

(Thousands)

Department	2020/21		2019/20		2018/19	
Community and Government Services (CGS)	\$ 9,171	9%	\$ 3,283	71%	\$ 2,900	45%
Culture & Heritage (CH)	-	-	-	-	10	-
Economic Development and Transportation (EDT)	378	-	519	11	1,760	27
Education (EDU)	3,120	3	72	2	206	3
Executive and Intergovernmental Affairs (EIA)	15	-	27	1	-	-
Family Services (FS)	14	-	420	9	280	4
Justice (JUS)	874	1	6	-	266	4
Health (HLTH)	83,183	86	282	6	1,023	16
Total	\$ 96,755	100%	\$ 4,609	100%	\$ 6,445	100%

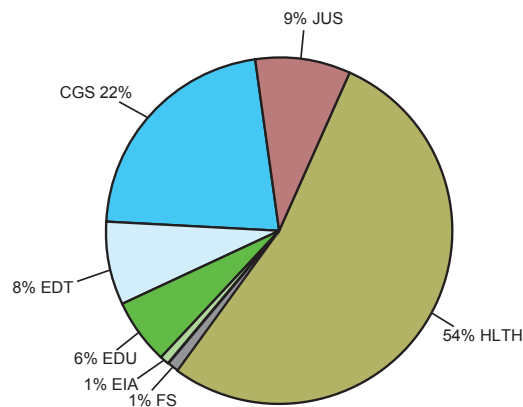

In 2020/21, the Department of Health had the highest volume and value of Sole Source contracts when compared to all other GN Departments. This is usually not the case. The COVID-19 pandemic has caused this change in the long-term historical trend.

In most years, the Department of Community and Government Services (CGS) has the highest number of Sole Source contracts. CGS is responsible for delivering many of the basic services of Nunavummiut (water, sewage, fire protection, etc.). In the event of emergencies, CGS plays a major role in delivering solutions. In these emergencies, Sole Source contracts are expected. These emergencies usually involve issues with infrastructure such as water and sewage or search and rescue operations.

CGS responds to a number of emergencies in the territory each year. Various search and rescue operations, water emergencies and other issues to ensure continuity of basic services. CGS was able to immediately and practically respond to all these emergencies due to the emergency contract provision of the GN contracting regulations. CGS was also able to quickly replenish depleted fuel supplies in some Nunavut communities due to the GN contracting regulations emergency sole source provisions.

The chart below “Government of Nunavut Sole Source Contract Distribution – Volume” illustrates the distribution of contracting methodology.

Government of Nunavut Sole Source Contract Distribution – Volume 2020/21

Illustrated on the pie chart above on a proportionate basis in 2020/21, the Department of Health issued the largest number of Sole Source contracts, followed by the Department of Community and Government Services.

Sole Source Contract Distribution – Volume

Department	2020/21		2019/20		2018/19	
Community and Government Services (CGS)	25	22%	25	57%	21	51%
Culture and Heritage (CH)	-	-	-	-	1	2
Economic Development and Transportation (EDT)	9	8	7	16	2	5
Education (EDU)	7	6	2	5	4	10

Health (HLTH)	62	54	5	11	6	15
Justice (JUS)	10	9	1	2	4	10
Total	115	100%	44	100%	41	100%

Appendix A

Definition of Terms and Abbreviations

Terms

“Goods”: In this report, “Goods” means contracts for the purchase of Goods that are primarily entered into by *Procurement, Logistics and Contract Support Services* on behalf of Government of Nunavut departments, generally referred to as Purchase Orders.

“Invitation”: An Invitation is a contracting method where Tender or Request for Proposal documents are sent only to contractors or suppliers specifically selected to submit tenders or proposals.

“Invitational Tender”: An Invitational Tender (IT) are those requests for which tender documents are sent only to contractors or suppliers specifically selected to submit competitive tenders. For readers not familiar with GN contracting practices, please note that outside Nunavut, Invitational Tenders are generally referred to as Solicited Tenders.

“Invitational Request For Proposal”: An Invitational Request for Proposal (IRFP) are those requests which are sent to contractors or suppliers selected to submit competitive proposals.

“Purchase Orders”: In this report, “Purchase Orders” means contracts for purchase of Goods, primarily entered into by the Department of Community and Government Services on behalf of Government of Nunavut departments.

“Public Tender”: Public Tenders are those Request for Tenders which are publicly advertised. For readers not familiar with GN contracting practices, please note that outside Nunavut, Public Tenders are generally referred to as Invitational Tenders.

“Request For Proposal”: A Request For Proposal (RFP) has been defined as follows, “when the government knows what end result should be, but not necessarily how best to achieve it; therefore Government seeks *proposals* on methods, ability, and price”.

“Sole Source”: A Sole Source is best defined by setting out the criteria. The Government of Nunavut Contract Regulations, under the Financial Administration Act, allow Sole Sourcing of contracts where a contract authority believes, on reasonable grounds, that one of the following conditions is applicable:

- (a) the Goods, Services or Construction are urgently required and delay would be injurious to the public interest; or
- (b) only one party is available and capable of performing the contract; or
- (c) the contract is an architectural or engineering contract that will not exceed \$25,000; or
- (d) the contract is any type of contract that will not exceed \$5,000 in value.
- (e) in addition, Article 21 of the NNI Regulations provides for Sole-Source Contract Awards to Inuit Firms

21.1 Taking into account the objectives of the Agreement and subject to the Government Contract Regulations, a Contract Authority may award a Contract to an Inuit Firm without conducting a competitive Procurement Process.

21.2 The Government Contract Regulations, where applicable, and the following factors shall be taken into account when deciding to award a sole source Contract under section 21.1:

- (a) the need to build capacity for Inuit Firms in the region where the Contract will be performed;
- (b) the extent to which a sole-source Contract will contribute to community and regional economic development;
- (c) the nature and value of the goods or services or construction; and
- (d) the potential cost implications associated with awarding a Contract without administering a competitive Procurement Process.

“Request for Tender”: Tenders may be obtained by public advertisement or private invitation. It should be noted that, generally, the value and type of contract will determine the type of tendering to be used.

Abbreviations Defined

Departments

CGS	Community & Government Services
CH	Culture and Heritage
EDT	Economic Development & Transportation
EDU	Education
EIA	Executive & Intergovernmental Affairs
ENV	Environment
FS	Family Services
FIN	Finance
